EDUCATION

FullStack Web Development
Thinkful Engineering Immersion

Graphic Design
Rocky Mountain College of Art + Design

Business & Accounting
Tarrant County College

EXPERIENCE

Thinkful Engineering Immersion 2019 - Present
Remote

Collaborated with junior and senior web developers using industry best practices and practical software development standards to deploy clean well tested applications. These projects focused on HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithmic data structures. Created and deployed mobile-first applications while using multiple languages and frameworks.

Notable Projects

Bugout Ready

- Implemented with React to write the Front-End managing the state of the application. Deployed using secure sign in, featuring ability to build bags based on specific situations.
- Constructed using Node.js and the Express library to build the RESTful API endpoints. Some endpoints are protected and using custom middleware to authenticate and route.

Live-List

- Designed, built, and deployed the Front end of this project in a team environment.
- Multiple third party API integrations for Geolocations and maps.

Apple Inc 2015 - 2019
Genius, Tier 4 Technical Advisor

Led new initiatives focused on scheduled modular repairs to deliver timely and quality customer care. Mentored team members in troubleshooting, resolving technical issues and customer facing challenges. Embraced new technologies and a changing process of service, learning to deal with ambiguity in a fast paced team environment.

Pro-Star Solutions 2015 - 2019
Account Executive

Led new sales initiatives and exceeded sales goals month over month for 6 months. Trained and mentored new associates. Selected to open new offices and develop new pipelines of sales.
